

Madelyn Lee, Clark Elementary, Mrs. Stevens, 5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash and planting flowers. Read on to hear more!

First, the town has a lot of litter so when I go out I pick up most of the litter I see unless it's gross. Everybody who picks up litter helps even if it is just a little bit. Litter doesn't make the town look good so people shouldn't just be throwing it on the ground. Throwing trash on the ground isn't good for the environment but throwing it away is, and people shouldn't be so lazy that they can't even throw away their trash.

Next, I plant flowers because it makes my yard look pretty. Sometimes I plant flowers in pots and give them to people. Flowers are beautiful and make the town beautiful! Flowers are beautiful and they have so many different colors and they make the town pop out.

Sincerely, Madelyn Lee

September 20, 2022

Dear Mayor Bray,

My teacher has informed me that you are planning to do a project to beautify paducah. I have a few ideas to help make that happen. I will help make my community beautiful by renovating basketball courts and baseball fields. Also, I will plant more plants and flowers.

First of all, I will renovate basketball courts and baseball fields. My friends and I and my neighbors will help do that by pulling weeds, adding more batting cages, patching cracks, and replacing old nets and bases with new ones. We will do this once a month and pull weeds more if needed. We will renovate these wherever needed.

Also, I am planning on planting more vegetation. I will accept volunteers that would like to make this happen. We will plant these at parks and especially downtown every week and provide soil and water for the plants and flowers.

In conclusion, I hope you take these considerations to help make our community beautiful. Thank you for your time.

Sincerely,
Madison Finley

Dear Mayor Bray,

I will help make Paducah beautiful by
Planting flowers, picking up trash, being kind.
Read on to hear more!

First, I will make Paducah beautiful by planting
Flowers. I want to plant flowers in front of houses and lakes.
So I can help with the gardens, etc. I think planting flowers
Would be a great change to the environment.

Also, we need to be kind because,
we don't only want it to look good on the outside
we want it to look good on the inside.

Sincerely,

Makenzie, Clark, Mrs. Paxson

Dear Mayor Bray,

I will make Paducah beautiful by recycle/be kind to people.

First, I will recycle soda cans when I'm or someone is finish drinking and I will throw paper in the recycling bin. And, if someone trash on the ground and not throwing it always that's littering. And if you have trash and there's no trashcan just keep it when you find a trashcan. Also, if there's candy wrappers on the ground throw them away.

Next, I will be kind to people when I'm in school if I see someone trip and fall I will help them. And if someone lost something I will them find it. And if someone is sitting alone, I will sit with them. And if someone's pencil breaks and I have a spare one I give to him.

So, this will make Paducah beautiful and a nice place to live in.

Mason

Clark Elementary School

Mrs. Paxon

5th Grade

Sept.20,2022

Dear Mayor Bray,

I have heard you are planning to beautify Paducah. And I have some ideas for you. I would make my community beautiful by cleaning up downtown Paducah of litter and making a tourist attraction between the rivers.

First of all, I would clean up paducah of trash by getting a group of volunteers together. This is vital because with a group there can be more people to notice and pick up the trash. Also, we would need to supply them with everything they need. Like Rubber gloves, trash bags, and claw tools so they can clean safely. Finally, we could clean up once a month. Because after a month or so, the streets will probably get dirty again. As you can see, this is a great way to make Paducah more beautiful.

Secondly, I think we should make a tourist attraction like a statue between the rivers. First of all, I would make it "Y" shape. Because it would show the rivers combining. Also, to get funds we could get sponsorships and maybe a small carnival. Finally, We could make the local news. (*local 6*) If we did that maybe we could get money from donations. In conclusion, a tourist attraction would make paducah even more beautiful.

To conclude I for one think cleaning paducah of trash and making a tourist attraction would make paducah even more beautiful! And if you like these ideas, I would recommend putting them in action!

Sincerely,
Max Manning

Clark Elementary school

5th Grade

Mrs. Stevens

McNally Wagner

Dear Mayor Bray,

First I will help make Paducah beautiful by picking up dog waste. Because to many people just let their dog use the bathroom in people's yards. So, if we pick it up, we can plant more flowers and trees and keep dogs off of them. Because if dogs keep using, the restroom in people's grass or flowers they will die and will ruin it. Especially if you really try to keep your grass nice and green. Also, our school has a garden we could even plant more fruits and vegetables and even plant some pretty flowers around our school.

Secondly, we can help make Paducah more beautiful by being kind to people. Because if people are not from here and they need a hotel you can show them the best ones or you pay for a hotel room for them. You could also show them the best restaurants and places to eat. You could even show them around town and where the coolest shops are. Also, you could even have them stay with you in your house for a few nights.

Lastly, we can help make Paducah more beautiful by donating money to charities or people in need. You can help homeless shelters and give them money or donate food. Or you can bring toys and coloring books to the orphanage and give them to the little girls and boys. You could also take homeless people's laundry and go wash and dry it at the laundry mat. Or you could go check out some books at the library for homeless people and the orphanage for the people that don't know where the library is or can't find it. There are many ways you can help people.

In conclusion that is how I will make Paducah more beautiful thank you for reading.

Name: Miles Boling

School: Clark Elementary

Teacher: Mrs. Lambert

Grade: 5th

Dear Mayor Bray,

I will help make Paducah beautiful by planting flowers and being kind. Read on to hear more!

First, I can help Paducah stay clean is pick up trash in my neighborhood or my school so the school campus will stay clean and my neighborhood clean too. This is just one of many reasons everybody can help our community.

Next, I will be kind to everyone so that if they do not live here, they will want to come back and bring more people here so our city will be happy and alive.

Finally, I can help Paducah thrive by helping plant trees and flowers in people's yard or in the city somewhere so Paducah looks pretty and clean so we can have nice town.

Sincerely,

Miles Boling

Dear Mayor Bray,

I will help make Paducah beautiful by being a kind person and helping my neighbors read on to hear more about my ideas.

First, I Paducah beautiful by being kind this will help because if you are a tourist and the people are mean you would not want to come back. Also, people will be nice to you if you are nice to them if I am a tourist, I don't want people to be arguing. Lastly, I want to go to a restaurant and the waiter ask me how my trip is going.

Next, I will Paducah beautiful by helping my older neighbors. If my neighbor is older and he can not take handle his yard I can mow or plant plants, this will help because tourists will like the area more. The more tourists we have the more money Paducah will make. If Paducah has more attractions, Paducah will have more money for even more attractions.

In conclusion therefore I can help make Paducah a better place .

5th grade

Miles Chesnut

Clark Elementary School

Miles Cooper, Clark Elementary, Mrs. Stevens, 5th grade.

Dear Mayor Brey,

I will help make my community beautiful by picking up trash, plant flowers, and recycle. Read on to find out more.

First, I will help by picking up trash. The reason we need to pick up trash is so we can keep our community clean because if we don't it will cause pollution. Also say you are just walking in the park and you see trash everywhere and if you don't pick it up it will cause the community to get dirtier and dirtier. Every bit of trash that you pick up counts because you are helping the community even if nobody's watching.

Next, we need to plant flowers and trees so our communities can be greener. If we plant flowers and trees not only are we helping theirs also trees that produce fruits, and plants can also plant fruits and vegetables. For example, if you are really hungry and you don't have anything to eat then you could get apples from an apple tree or carrots your farm. If you don't have any plants then ask your neighbors for some fruits or vegetables.

Finally, recycle if you have a water bottle or a soda can don't just throw it away you can recycle which is better for our community. Also if you recycle your recycling can be made into something brand new like a brand new soda can or water bottle. For an example, if your walking past and see a soda can or water bottle on the ground pick it up an recycle so our community can be cleaner. So you should up cans, bottles, and paper so you can get new bottle of water, soda, and paper.

Sincerely, Miles Cooper

Dear Mayor Bray,

I will help make Paducah a better place by picking up trash, being kind, and donate to charities. Read on to hear more!

First, I can make Paducah more beautiful by picking up trash. Good places to pick up trash are around your neighborhood some people round their neighborhood just leave trash around there neighborhood so that makes your neighborhood more pretty. Another good place to pick up litter is the park lots of parks just have trash when your taking a run in the park and you see trash you should pick it up, when your playing in the playground and you see trash also pick it up!

Another way you can make Paducah beautiful is being kind. You can do that by, including everyone in every thing. If you are playing a

game and someone wants to join let them! If you are sitting with your friend at a table and someone is sitting alone invite them to sit with you and if they say they want to sit alone that's okay at least you asked them to sit with you. And if they say yes that's great!

Another reason is to donate to charities get all the toys or clothes that you do not use any more and donate it to charities.

Sincerely, Nicole

Nicole Perez

Clark Elementary

Lambert/5th Grade

Nolan Black

Clark Elementary School

Mrs. Stevens

5th Grade

Dear Mayor Bray

I will make Paducah beautiful by cleaning and helping the environment, and being kind to others, read on to hear more!

First, I will clean up the environment, for example like cleaning up soccer stands, football stands, and possibly river banks. If we all work together, then are community can be much cleaner. I will try my best to clean up after myself and others, at parks, and around peoples neighborhoods.

Next, I think that we should have more amusement parks, aquariums, and even sports complex's, and me and my friends like to play soccer, baseball, football, and basketball. We give the majority of our money to other counties and not for ourselves.

In conclusion, this is why we should clean up after our selves and build more buildings in Paducah.

Sincerely, Nolan Black

Olivia Parmely, Clark Elementary, Mrs.
Paxson, 5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by, helping the environment by planting flowers and trees. Another thing I will do is recycle water bottles, soap bottles basically any thang really that needs recycled.

First, I will help the environment by planting flowerers and trees to reproduce so we can have our resources to liv and survive. If you wanted to you could plant other things like fruits and vegetables what ever you can think of.

Lastly, I will recycle so all the plants will not die. The more you recycle the less you have to do plant the plants and the less you have to plant the more time you have with your family. Sincerely, Olivia Parmely

September, 20, 2022

Dear Mayor Bray,

I have heard that you are planning to do a beautification project in Paducah. I have some ideas to share with you. I will help make my community beautiful by making community gardens and pick up litter.

First of all, I will form a group of people to construct some community gardens. We will have a fundraiser to buy supplies. Secondly, we will build the gardens at Bob Nobel or the park. We will find a balanced area, with not too much sun and not too much shade. Lastly, we will make sure everything is going well. We'll check up on the gardens a few times per week.

Another way I can help is, to pick up trash and litter. First, I will make different groups of people. I will assign every group to different parts of Paducah. For example, one group will go down by the river and another group would go to Stewart Nelson. Additionally, we will go around town to pick up the garbage. We'll see how much trash we can pick up. Finally, everyone will do this once a week. I think that this would help our town stay more clean.

In conclusion, cleaning up litter and gardening could help our town be a more beautiful place. Thank you for taking my ideas into consideration.

Sincerely,
Payton McKinnon

Dear Mayor Bray,

I will make Paducah beautiful by picking up trash ,planting flowers\ trees and recycle

First, I will pick up the trash not only picking up trash around my neighborhood but also around the ocean there is a lot of trash in the ocean. Even when you don't pick up trash in the ocean there are still animals eating the trash if we all can pick it up there will be no animals eating trash. But even if you don't like animals still try to pick up the trash and don't be the one who dropped it and if you have some trash in your hand don't just throw it try to look for a trash can if you can't find one hold on to it.

Plus, you can also plant trees and flowers it won't only make the world look beautiful. There have been so many people who cut trees down and little kids pulling flowers out the ground. You can also bring your friends and family with you to help you plant them. Because you must water them, make sure they get a lot of sunlight and try to find out where you are going to plant them. You don't just have to plant plain trees you can plant an apple tree , mango tree and many more.

Finally ,recycling not only can you recycle outdoors you can do it in school you can pick up papers, pencils, and when you recycle you are making\using new things for example you just got done opening a present it had so cardboard on it don't throw it away go and re cycle it that way you and someone else can use it. It does not always have to be cardboard it can be glass, plastic and more you can also compost the food you find .

There are many ways you can make Paducah beautiful.

Sincerely,Rashonna

Dear Mayor Bray,

Rylee Wallin
Clark elementary
Mrs. Mohs
Grade 5

I will help make Paducah beautiful by being kind to the things that share our planet and planting more trees. Read on to hear more!

First, I will help by donating to the places helping the animals that are dying out. Like zoos, and "The Land Between the Lakes" or the LBL. This will help these animals have a longer existence or make the number of the breed of the animal, go up and have a lower chance of extinction. And stop overhunting and overfishing. This will help the animals that share our planet.

Also, I will plant trees like apple trees, cherry trees, pear trees, and more! This will help our environment and the people in it. This will provide fresh fruit, feeds animals, beautiful parks that people can enjoy, and having clear air with not as many gases and chemicals.

In conclusion, I can help make Paducah beautiful, and a place people will want to visit.

Sincerely,

Rylee

Dear Mayor Bray,

I will help make Paducah beautiful by planting flowers and being kind.

Read on to hear more.

First, I will donate to people in need, by opening lemonade stands and sell toys.

(Which I have done both.) By doing this I could change the WORLD!

Next, I will be kind by mowing peoples lawn for free and never be mean to people.

And helping homeless people by giving them money and donating money to Mayfield because

Of the tornado.

Thank you for reading this :). Sincerely, Roberto Molina

School: Clark elementary class: Mohs.

Samara Mann

5th grade

Dear Mayor Bray,

I will help make Paluca beautiful by planting flowers and being kind. Read on the hear more!

First I will pick up trash when I see trash and

I will recycle and wont burn trash. Next I will be kind by being to people, donate to

charities, clean up the river, pick up dog waist,

Compost fruit + vegetables, donate money in need. Sincerely Samara Mann

Sincerely Samara Mann

Sarah Marcum, Clark Elementary school, Mrs. Lambert, 5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash/litter and not burning trash. Continue reading on to see why!

First, picking up trash/litter, I really like seeing my town as a beautiful place but if there's trash everywhere, I cannot see the beauty. But if I help clean up then it'll look beautiful again! I feel like people should try and help clean up plus, it's good for the environment. And I'm sure a lot of people agree! Just last year me and the kids in my class picked up a lot of trash on are playground and when we were done, it looked better than before, and we can do the same thing for Paducah!

Next, not burning trash. I don't know where to start. First, the fumes whenever people burn trash there are always fumes which smell horrible. And I mean very bad. Second, its one of the worst ways to get rid of your trash it's easy to just put it in your bin. Also let me add I'm pretty sure that is called a fire hazard a big fire hazard, since there is a lot of trash in the bin, and it might be paper which is very easy to light on fire. Or it might be plastic which again. THE FUMES! Third and last of al the inefficiency of doing it. I haven't done it before, so I don't have firsthand experience. But there are way more efficient ways of getting rid of it like waiting for the garbage man to take it from the green bin outside your house.

In conclusion I will help Paducah be beautiful by picking up trash/litter and not burning trash. I hope you can see why. Or do you have your own idea on helping Paducah become beautiful?

*Sincerely,
Sarah Marcum*

Sean Fisher

Clark Elementary School

Mrs. Stevens

Fifth Grade

Dear Mayor Bray,

I will help make Paducah beautiful by being kind and trying to better our environmental status. Read on to hear more.

First, I will be kind by helping people that are disabled or cannot take care of themselves. I can also donate or help out with charities that help people without homes or need food. Plus, I can be kind to people throughout our community by just pitching in to help or cheering on other people at awards, sporting events, and different competitions.

Secondly, I can help our environmental status by recycling paper, plastic, and metal things, composting fruits and vegetables, and helping clean up litter and garbage. For example, if a local creek were filled with waste or garbage then you can spend your time cleaning it up and, in the end, you will be proud of what you have accomplished. People should also try to grow some of their own produce and carry tote-bags to the store which can be fun.

In conclusion, these are some simple ways that people can help to better Paducah and make it beautiful.

Sincerely,

Sean Fisher

September 19, 2022

Dear Mayor Bray,

I understand that you would like to make Paducah a more beautiful community. Although our city is already very nice I have some suggestions for making it even better and I can help my community look better by planting flowers and cleaning the litter by the shore.

First of all, I will clean up the litter by the shore. I have a litter claw that I used to pick up trash a few years ago and a bunch of trash bags. I will get my dad to help because he would love to help the community too and I'll do this every month to make it look better.

Secondly, I also think we should plant flowers by the mailbox or front yard because I would like to see the flowers pop from the yards. It would also be pleasing to the eye to see many flowers and it would make more bees which would make the flowers look even better but also increase the bee pollution which would be great. The best colors would be white, blue and red since these are the flag colors.

As you can see that is why we should do some of my ideas to help the town look better.

Sincerely,
Selena Proctor

September 22, 2022

Dear Mayor Bray,

I have heard that you are doing a project on trying to make paducah more beautiful. I have a few ideas to share with you. I will help make my community more beautiful by planting trees, flowers, and decorating a little more for all holidays.

First of all, I would love to help plant flowers and trees. I could see who wants to volunteer to help. We could plant monthly and water the flowers weekly. We could also ask for permission to plant at parks, houses, neighborhoods, schools, and stores.

Another idea is, we could decorate more for all holidays. I think that will also make paducah more beautiful. Again we could see who wants to volunteer. I think we should do it every holiday so we could have decorations almost every month. We could do it in the parks and in the neighborhoods but of course with permission to decorate in the neighborhoods.

Lastly, I just wanted to thank you for your time to read this letter and consider these ideas.

Sincerely,
Sophie Kyle

Dear mayor bray, from Sophya jones my school is Clark elementary, and my teacher is Mrs. Steven's, and I am in 5th grade.

I will make Paducah beautiful by planting flowers and being kind to people. Read on to hear more! first I think there should be more recycling bins in parks and in places outdoors where there is food and water bottles.

And I think there should be more places to go like a zoo are a museum or an aquarium and more parks and more pet shops to get like cats and dogs and snakes and lizards and all other cool types of animals and I think there should be a babysitting club and I think there should be a sports complex where you can get all kinds of sports stuff and an amusement park.

Finally, I think there should be more homeless shelters where people can stay and not have to stay on the street in the middle of the night and where people can donate to the shelters, and I think people should donate to more charities like hospitals so the children can get better.

Sincerely, sophya

Tabitha Donaldson
Clark Elementary

Ms. Steven class in the 5th grade

Dear Mayor Bray I will help Paducah a beautiful by planting flower and being kind read on to hear more.

First pick up trash and clean up the river

Next's I will be kind and pick up some body dog poop and I would help people who need help

Are homeless people in Paducah in a better place to live and I will pick up trash on the ground when I see it and I will pick up dog waste.

Next I will donate food to people and wont
burnt trash and I will and I will be kind to
people and I will plant flowers and tress to
make the town look better

Sincerely Tabitha donaldson

Dear Mayor Bray,

I will help make Paducah beautiful by being kind to visitors and anyone, read on to hear more!

First, I will plant flowers and trees I've actually been working on it I have two trees and about 5 to 12 flowers all because I care about are environment and for our town to look good and that will bring on visitors and possibly make new friends.

Next, my sidewalk was really dirty and smelled bad in tell I started to clean it up cause it helps people ride their bike safer instead of them having to ride it in the road to keep people safe.

And those are my ways I will keep Paducah more beautiful.

Sincerely,

Taylor Chappell

Paxson, 5th grade, Clark elementary

September 20, 2002

Dear Mayor Bray,

I understand that you want to make Paducah more beautiful. Although Paducah is already beautiful, Here are some ideas that can help make Paducah more gorgeous.

First of all, we could start a cleanup crew and go around paducah cleaning all the litter and we could clean other people's yards and we will do it every month. We could also make littering illegal and you will go to jail

Then, we could give seeds out to everyone and maybe they'll plant them outside and maybe even give seeds to their family, friends, etc. If they don't want the seeds we will plant some in the park.

In conclusion, I think these ideas are great so we should start cleaning litter and giving out seeds to everyone. I hope you like my ideas and start with at least one of them.

Sincerely,
Trystyn L. Boss

September 22, 2022

Dear Mayor Bray,

I have heard that you are planning to do a beautification project in Paducah. I have some ideas to share with you. I will help make my city beautiful by picking up trash and to donate money to repave roads.

First of all, we could pick up litter. I would organize a group to help the cause. We will clean up along the river and at the parks. We could do it whenever you need us to but, we were thinking monthly.

Another way I could help is, I could donate money to repave roads. We could do multiple fundraisers. And we could give the money we make to the office. The fundraisers I was thinking of were school car washes, a giant lemonade stand, and an art stand.

In conclusion, there are many ways that I could help with this project. I am sure other people could help too.

Sincerely,
Tyler Jones

Tyrielle Caldwell

Kate Lambert

5th

Clark Elementary School

Dear Mayor Bray, I would like to make Paducah pretty place by helping pick up trash, donating to charity, recycling

First, picking up trash is important and can help a lot. Trash being left on the streets is bad and it is harm lots of animals. If people leaving food on the streets and a animal eats it they could get really sick. Or they may pass away

Also, donating to charity could help the homeless get off the streets which could

stop a lot of littering also. I think that we need more homeless shelters. Donating to charities could help build more homeless shelters. If people are in need you should always help them.

Lasty, recycling can help in many different ways. If we recycle more less plastic will be make. Also more animals would be alive. Plastic is be blowen in to the lake, river, and sea.

In conclusion this is how we could make Paducah a better place.

Neighbor

Dear Mayor Bray,

I will make Paducah beautiful by picking up trash, donate money to the homeless and other charities, recycle.

First, picking up trash is not good for the person who is picking it up. it is bad for the person who just left it there. I can pick up trash everywhere I see it at some of the times I leave something on the ground, but I always go back and pick It up.

Another reason is to donate money to the homeless, and other charities. The homeless need food, water for them, and more. We can donate toys to the homeless kids out there. We can donate school supplies I can donate money to a lot of charities.

Finally, recycling you can recycle different ways for example, plastic, wood, metal, paper, and others. I can pick up plastic and put it in the plastic trash bin. Me and my family picks up trash every day of the year. So the animals don't get hurt we love the animals so much we need them but to help the animals.

Thank you of reading with I hop you have a great reset of the day.

Sincerely,

Zamarri Dickerson

September 20,2022

Dear Mayor Bray,

I have heard you are planning to do a project to beautify Paducah. I have some ideas to help. I will help make my community beautiful by helping renovate basketball courts and helping nature.

First of all, I would help renovate basketball courts. The government and the community can help get new goals, nets, and make new pavement. The effect of this is that family, friends, and kids can have a good time and enjoy their beautiful neighborhood instead of being bored in the house. It also can help kids develop skills and get better at playing.

Also, I would help with nature. The community could all get seeds and plant trees in their neighborhood so our city can look more unique and beautiful. The effect of this is that carbon dioxide in the trees could get the carbon dioxide and release oxygen. The trees could make our neighborhood beautiful and cause less sickness.

As you can see, I have some ideas to make Paducah more beautiful. By improving basketball courts and nature Paducah will be more beautiful.

Sincerely,
Zayden Lovett

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash and clean the river I when I go fishing

First, I will pick up trash In the river because the fish don't need to get stuck in the line that we us and that will make the fish not swim right and I don't think. That is not good for thbe fish and I it can kill a lot fish to and it can kill bird's and sometime human. Because the fish could have line on them and a bird could eat the fish and get choked and the line. And that why you should help pick up the trash in the river or the shore of the river.

Next I will pick up trash on the land, I think we should pick up trash on land because is can help dog not eat it and ya that all have a good day

Zayden white

Mis moons

Sept. 22, 2022

Dear Mayor Bray,

I Understand that you want to make Paducah a more beautiful and better place. Some people think it is already beautiful but it could use some more. I will help by Painting, Cleaning and Lights.

First, I will help by painting rocks at the parks so when people come and visit they will see so much color and it will make it more nicer than just plain old rocks with no color. I will paint them so many colors it will look amazing.

Secondly, I can grow some flowers and vegetables for a community garden, so people can go there to get flowers and vegetables for their food and it will help the poor people since the food source is rising and people may not have that much money so I think that would help people like that.

Continuing, if some alleys downtown are very dark, how are people supposed to walk through them? That is why I can hang up some lights so when people walk through they can see all the pretty lights hanging up everywhere instead of those lampostes.

Based on what I have shared, I think all my ideas would make Paducah a much more beautiful place. I have lots of more ideas but those are my main ones for now I know they will make paducah better than it is.

Sincerely,
Zoe Littlemyer
